

# How to Get ID Plates

**N**eed an identification or name plate for your communications equipment or generator? Tell your support that SB-11-631, Identification Plates and Name Plates for Communications Equipment, has most of the ordering details.

**RADIO SET, AN/PRC-112  
PART NO. 01-P21261J001**

NSN: 5820-01-279-5450

MFR: 94990 SER. NO. 19232 A

CONTRACT: DAAB07-90-C-H025  
US

Your support will need some info from you about the plates you need. They'll need the:

- 1) Number of plates needed and their dimensions.

- 2) Type of equipment or component by type number or nomenclature.
- 3) Manufacturer name and location (if known).
- 4) Contract procurement number.
- 5) Equipment or component serial number and NSN.

They'll send that info and a fund cite on a DD Form 448 to:

Commander  
US Army Communications-Electronics  
Command (CECOM)  
ATTN: AMSEL-LC-LEO-P-MM-ER  
Bldg 1202E, 2nd floor  
Fort Monmouth, NJ 07703-5006

Annotate the form with "for fabrication" and your support's address and phone number. Once the plates arrive, your support will have to fill in any blank designations by hand or machine.
